

PROFESSIONAL SUMMARY

Web Developer with 1.5+ years of experience in Drupal, PHP, and JavaScript, building responsive, accessible websites and API-driven applications.

WORK EXPERIENCE

Drupal Developer Aug 2025 – Present
Codernaline LLP, Indore, India

- Build and maintain Drupal 10/11 websites for international clients, including VTPC (Latvia's national assistive technology center), UCDC (University of California Washington Center), and DB United (e-commerce, premium bags).
- Implement responsive, accessible frontend interfaces using HTML5, CSS3, and JavaScript across these client projects.
- Developed OAuth2 authentication and multi-tenant data isolation for a headless Drupal-based Real Estate CRM platform.
- Manage development workflows using Git, Composer, DDEV, and Docker; set up CI/CD pipelines for automated testing.

Software Development Intern (PHP/Laravel) 2025 – 2025
Vidhya GXP, Indore, India

- Assisted in backend feature development and debugging for a pharmacy-industry platform using Laravel's MVC architecture.
- Gained hands-on experience with database design and API integration using MySQL.

PROJECTS

Real Estate CRM Platform Drupal 11, REST API, OAuth2, MySQL, GitLab CI

- Built a headless, multi-tenant CRM enabling real estate agencies to manage leads, properties, and client communications.
- Implemented OAuth2 authentication supporting both a web dashboard and a mobile app.
- Designed multi-tenant data isolation to keep each agency's data secure and separate.

Job:Hub and Portal MERN Stack (MongoDB, Express.js, React, Node.js)

- Built an end-to-end job portal directly connecting job-seeking students with recruiters on one platform.
- Enabled students to search and apply to listings; recruiters can view and shortlist applicants.
- Implemented a multi-stage hiring workflow: shortlisting, aptitude test, coding round, and one-on-one interview.

Task Management System React, Node.js, MySQL

- Building a task management application with user login, task creation/assignment, and status tracking.
